

**June 2018**

*Quantum physics thus reveals a  
basic oneness of the universe.*

Erwin Schrodinger

## PhoQus: Quantum Technologies at IPFN

IPFN team is part of European consortium that will study quantum fluids of light.

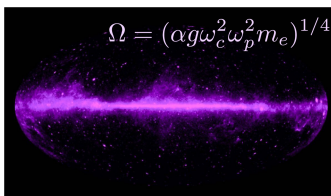

**Physics Dept  
Colloquium:  
Bruno Gonçalves**

**Physics Dept.  
Colloquium:  
Marija Vranic**

**ESTHER shock-tube:  
Closer to become  
reality!**

**Dark-matter shining in the fire: looking for axions in the plasma**

**Scientific Reports features paper on graphene synthesis**

**Joint IPFN-CeFEMA Mini Workshop in Strong Field Physics: from lasers to QCD**

**Visits to IPFN labs**

**PlasmaSurf 2018  
Where Physics and Summer meet**

**Ação de Formação em Lasers 2018**

**IPFN is on Instagram!**

We've just launched IPFN's Instagram account.

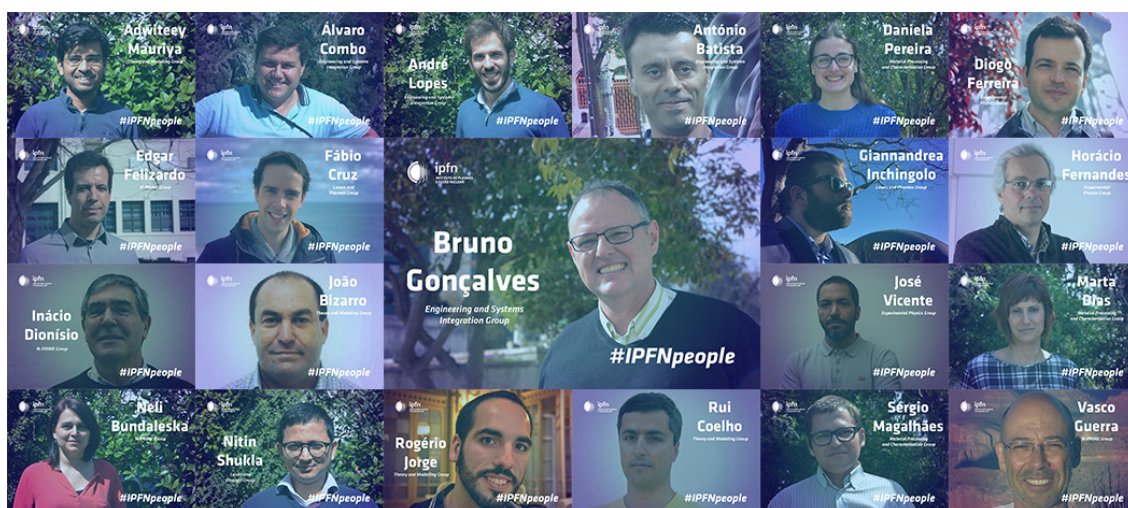

Follow us @ipfnmedia - [Link](#)

**Annual Report 2016-2017**

Our Annual Report is almost ready!

Stay tuned!

#IPFNpeople is the new outreach project, showing to the world those who make IPFN happen. Stay tuned through our [Facebook](#) and [Instagram](#)!
