

**September 2016**

These last 3 months, IPFN witnessed great achievements and events: our new **website**, delightful **events**, several successful **courses** and **awards** to our members

## PlasmaSurf 2016: yet another successful edition

PlasmaSurf is a summer school on plasma physics, whose name is inspired by a wave transferring energy to an electric charge. This brings up the perfect scenario for a demonstration on Portugal's largest laboratory: the ocean, where the participants have a chance to apply these principles through actual surfing!

**Professor Luís Oliveira e Silva honored by the President**

**Two IPFN teams concluded the Lab2Market at Técnico**

**One more week of activities with Ciência Viva**

**EUROfusion Goal  
Oriented Training**

**Workshop on Parallel  
Computing for Fusion**

**APPLAuSE students  
in Técnico PhD Open  
Days**
